Re: Final Reissue Review 09/620,919

The following issues must be addressed prior to mailing the Notice of Allowance:

1. The supplemental declaration filed 12/9/05 is defective. It must state that all errors corrected occurred without deceptive intent. See MPEP 1414.01.
2. The original declaration is also defective. It repeats the same error statement as that set forth in parent reissue application No. 09/252,551 (RE37826). The error was corrected in the reissue patent. A new declaration is required setting forth an error corrected in this reissue. See MPEP 1414 II. Items 1. and 2. can be corrected with one declaration.
3. Original patent claims must maintain their original numbering even though they may have been cancelled.
4. The cancelled original patent claims 1-33 and 41-103 must be bracketed rather than struck through.

PLEASE PROMPTLY CORRECT ALL OF THE ABOVE AND THEN RETURN THE FILES TO THE SPRE UNIT WHEN THEY ARE READY FOR ISSUE.
